

## TALKING BACK: Disc Replacement Versus Fusion A Conversation About the Latest Advances in Spine Surgery

Tuesday, May 1, 2018 | 6 p.m

Capital Health Medical Center – Hopewell

NJ PURE Conference Center, One Capital Way, Pennington, NJ 08534

When physical therapy, medication, or injections aren't easing your chronic back pain, surgery might be your best route to relief. And if you're experiencing symptoms like decreased balance, difficulty walking, reduced fine motor skills in the hands, and problems with urination, they may be signs of a more serious condition that could be improved through surgery. Join DR. I. DAVID KAYE, board certified spine surgeon from Rothman Institute, to get a better understanding of your symptoms, learn about the latest advances in spine surgery, and receive guidance on which option may be right for you.
